FOREWORD

We are a trifle awed when we think of the responsibilities automatically placed upon us when we undertook the editing of this book, for we realize that there are a number of obligations which we have to fulfill. We present this book with the fervent hope that none of these obligations have been neglected.

It would be deviating a trifle from the truth to say that our task has always been a pleasure. The editing of a school annual can be an arduous task at times. But if we could be sure that this, the 1937 SHORTHORN, would be worthy of its predecessors, its class and its school, we could rest with the feeling that our work had not been in vain. So, with these thoughts in mind, we present to you, in behalf of the class of 1937, this volume of the SHORTHORN.

The Editors.

TO
VICTOR ARTHUR RICE,
A SCHOLAR AND A TRUE FRIEND,
THE CLASS OF 1937
RESPECTFULLY DEDICATES THIS BOOK.

PROFESSOR VICTOR ARTHUR RICE

As a student at North Carolina State College from which he graduated in 1917, he gained prominence as a scholar, leader, athlete.

He was Swine Specialist for the state of Massachusetts from 1917 to 1919, after which he was appointed Assistant Professor of Animal Husbandry at our college. From this position he advanced to Head of the Department of Animal Husbandry and Head of the Division of Agriculture.

He is the author of the textbook Breeding and Improvement of Farm Animals, a standard work which is used in about 35 colleges and universities. He is in great demand as a public speaker, and as a hobby, he plays golf much too well.

Professor Rice married Laura Bussells of Fernandino, Florida, in August 1921. They have two very charming daughters, Zipporah, 15 years old, and Mary Virginia, 13.

Mrs. Rice in her own right is a woman of accomplishments. She has an enviable reputation as an actress. You have the rare opportunity of seeing her portray the character Darlin' in your class play Wappin' Wharf. Her friends recognize her in real life as a darling: a most charming and gracious one.

DEDICATION

To Professor Victor Arthur Rice

The compliment which you pay to Professor Victor A. Rice is well deserved. Undoubtedly, however, this dedication to him of the written record of your college years has deeper significance. You are setting up a personality to serve as an ideal. You might well strive to imitate him in those qualities which he possesses so abundantly:

PERSISTENCE. He sticks everlastingly to the task until it is mastered. Obstacles do not frustrate, he accepts their challenge and conquers them.

INTELLIGENCE. He is efficient in the use of mental faculties, and by his example inspires other to do the same. This is the test of a great teacher.

PROMPTNESS. He is a man of immediate action. Whatever is to be done is accomplished without procrastination.

FORCEFULNESS. He is a super dynamic personality,—a whirlwind lecturer whose power overcomes classroom force of gravity.

HELPFULNESS. He is ever ready to give advice and instruction in order to round out a more efficient, acceptable human being.

INSPIRATION. He has the faculty to make one do his best, to rise above the commonplace, to reach those rare heights of excellence to which we all aspire, but so seldom attain.

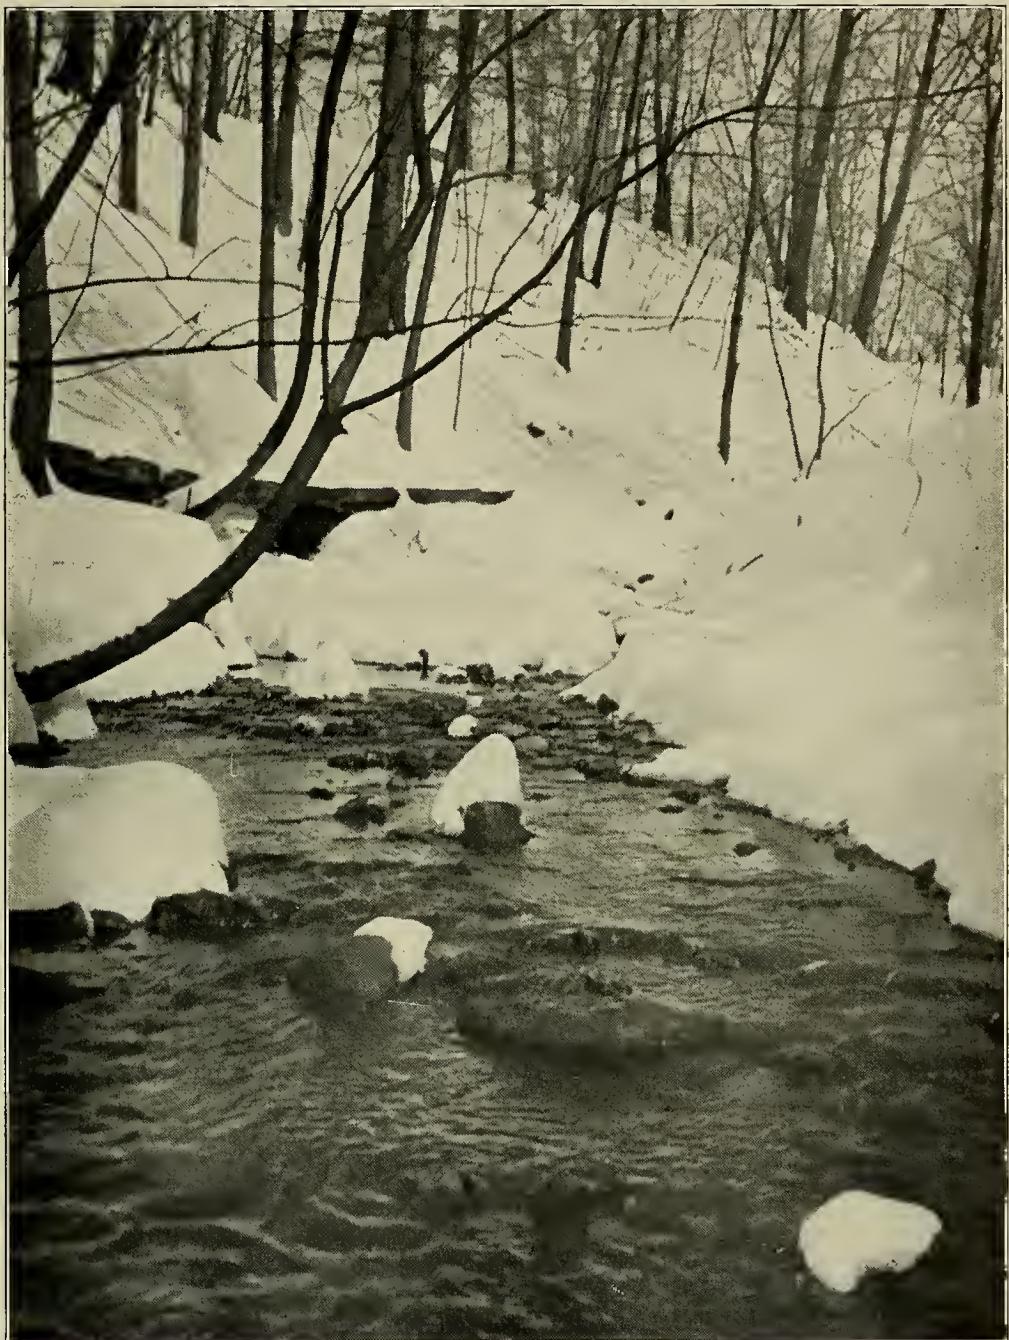

IMAGINATION. He has the insight of the artist and the philosopher. He sees deeply, and eloquently delineates his visions for others to see.

COURAGE. He is not afraid to face facts, to assume responsibility, to make mistakes, to do his duty.

This is the man you honor,—one worthy of emulation.

ANIMAL HUSBANDRY

The breeder of domestic animals —
an artist working with flesh and blood.

William R. Burnham

Windsor, Vermont

1917

Big Bill Burnham, hailing from the Green Mountain State, has used a most unique method of pulling down good grades—spending many class hours in peaceful slumber. In spite of this Bill has been wide awake on his job as president of K. K. According to Bill, Vermont has SWEET soil, SWEET maple sugar, and some very nice SWEET-hearts.

Springfield

1917

K. K.'s chief night watchman and man about town deserves a place in our hall of fame for his unsurpassed knowledge of the fairer sex. June will see Grandy's losing one of the senior members of their selected clientele—and the school one of its most liked students.

Although Ed has been with us for only one year he has made himself many good friends. Active in extra-curricular activities, successful scholastically, and lucky in "Fords", Ed also has proved himself a diplomat off the campus. Whenever you see his light blue hat or his bright red hair, you can be sure of a smile just below.

Winn has the makings of a good Animal Husbandman, based on his success here at school and his many years of active 4-H Club work. He is to be admired for his achievements here accomplished with the hindrance of everyday chores at home. He is the most promising farmer in the group, as evidenced by his election to Master in the Grange.

1915

Little can be said of the freshman, Arthur Hoyt. However, he chose to live at the K. K. during his senior year and shortly after school opened last fall, he made his historical debut into social life—from which he hasn't quite recovered yet. Nevertheless, it has never interfered with his accomplishments here and at home.

ANIMAL HUSBANDRY CLUB

The Animal Husbandry Club is composed of both State and Stockbridge members. The program consists of speakers prominent in the agricultural field who present their views and experiences. These talks prove to be most interesting and helpful to the members.

The speakers and their topics for the past year were as follows:

Mr. Milton Case—Agriculture in Burma.

Mr. P. D. Young, M. S. C., '29—Sugar Farming in Porto Rico.

Mr. Dewitt C. Wing—The Next Quarter Century in American Agriculture.

Mr. Shaun Kelley—Problems Facing the Dairy Farmer in Mass.

Mr. Cliff Cleavenger—Animal Husbandry - An Industry for N. E.

Mr. Richard H. Merrit, M. S. C., '32—Ups and Downs in Breeding Purebred Livestock.

Mr. Charles Ford—Farm Credit and Finance.

Mr. Quentin Reynolds—Agricultural Cooperation in New England.

Joseph J. Bauks

Marlboro

1915

Possessor of a melodious voice, and willing to use it, Joe was a mainstay on the football squad. Joe has tried, to no avail, to set a good example for the rest of the class during the past two years. Even though he intends to make singing his life's work, we think he would make a better dairyman.

1917

Huge of stature and caustic of tongue—that's our class clown who kept us jumping at a furious pace. Cunny, sometimes known as Primo, kidded anyone and everyone mercilessly. He is, however, a likeable chap and we are glad to claim him as one of us.

Armando Emanuele

Revere

1916

Independent and strong-willed, with original ideas, Armando is an industrious student. During his stay with us he seemed to be very unwilling to talk about himself. A broad-shouldered bulwark on the football squad, he is another letterman from the dairy class.

DAIRY CLUB

The Dairy Club has been very active this season and has brought in many prominent men in the dairy field to discuss timely problems concerning the industry. Attendance has been large at these meetings, as the club is composed of both State and Stockbridge students. The Stockbridge freshmen, however, were conspicuous by their absence.

A few of the speakers and their topics were as follows:

W. H. Bronson—Dairying in Europe.

C. Foskett—Experiences in Retailing Milk.

Mr. White—Qualities Necessary for Advancement.

Dr. Keenan—Good Housekeeping and Sanitation in the Dairy Plant.

A. W. Smith—Personal Experiences in the Dairy Industry.

Irving S. Anthony

New Bedford

1916

Self-confident, but with a likeable personality, promoter Tony missed his real calling—he should be selling bonds to old maids. With a fine memory for facts that many do not possess, Tony has made an excellent record here at Stockbridge. He was also a social success as a partner in the Morrice-Anthony combination.

John M. Eastman

Gill

1918

Keen, always ready with a good story, John has made an enviable scholastic record. He has formed with Olson a companionship on campus that rivals the Anthony-Morrice combine. John travels to and from Greenfield every day and so we saw very little of him outside of class. With all the gadgets on his car, he should enjoy commuting.

Bernard J. Jackimczyk

Florence

1915

A fine athlete, Jake lacked only size to make himself a serious threat on the football field. He is modest and carefree, but with a natural talent for arranging flowers that should make him a very good florist. His pleasant disposition has kept him out of many involved discussions on floriculture and will certainly help him in the business world.

1915

Easy-going, affable but determined, ex-government man Pete was the gay Lothario with the Amherst beauties. We think he must be cursed with a conscience because he at least worried about the studying he didn't do. *Aqua vitae* (whatever that is) was never his downfall, but it made him pleasant company. He is such a handsome lad that we don't blame the Amherst girls for succumbing to his charms.

Kolony Klub, Historian, 2; Sociology Club, 2.

James F. Morrice

Vineyard Haven

1917

Good-looking, wavy-haired Jim with his flair for art will probably become noted for his floral creations. As one of the three Stockbridge members of the band, he revealed that he is also gifted with musical talent. His popularity at Smith College is a sure sign that he will be successful as a retail florist.

Marion W. Newhall

Peabody

1917

Good-natured Marion; her amiability was the quality that permitted her to put up with our horse-play. We think that Olie and Marion would make a great pair, having a similar make-up. Can't you two do something about it? Her genial nature and her perseverance have earned for her the respect of her classmates.

S. C. S., Secretary-Treasurer; Horticultural Show, 2.

Edward F. Norberg

Arlington

1915

Ruth, the Radcliffe girl, took our school giant around weekends. This may explain why Ed was the class bluffer. We don't consider Norberg studious, but we believe he will be a thoroughly practical florist. As well as being the best hockey player in Stockbridge, he is one of the most popular fellows in the Floriculture group.

Kolony Klub, Vice-President, 2; Hockey, 1, Captain, 2.

Edward M. Olson

Slow, but persevering, Olie has worked hard here and deserves success. He has very little to say in class, but he is decidedly aware of what is taking place. He is invariably seen on campus with his bosom pal, Eastman.

Silent and attentive, Cal is rather shy, not given to saying much in class. His sincerity and his ability to work hard will be remembered by his professors and by his fellow students. His likable unassuming manner will probably aid him greatly in becoming a successful horticulturist.

Quiet, and slow in answering, angular Cliff is always ready with his broad smile. We expected his dilapidated motor conveyance—toe venerable to be called an automobile, to blow up any day, but it will probably stay under him for many more contented and slightly bacchanal miles. On placement at the college, Cliff literally left his mark on campus.

Hailing from the city of Politicians and Alphabets, Bernie, with a pleasing personality, an extraordinary sense of humor, and a profound interest in horticulture, did things at our Hort. shows. HORTICULTURE CLUB

The Stockbridge Horticulture Club was organized in October, 1936, by a group of Horticulture students for the purpose of furthering the students' interest in this subject. The members take this opportunity to express their appreciation to Rolf Heitman, Eugene McDonough, and Dewhirst Wade for their splendid work in drawing up the constitution and program for the year.

The speakers for the year included Professor Frank A. Waugh, Director R. H. Verbeck, Professor S. Church Hubbard, Mr. Benjamin Isgur, Mr. Arnold M. Davis, as well as many of the student members of the organization.

POULTRY CLUB

The Massachusetts State College Poultry Club was not as successful as had been anticipated. Due to a late start only two meetings were held. At the first meeting, on January 13, a general social program was held and refreshments were served by the wives of the faculty members. Meetings for the year were planned and officers were elected.

On February 25 the second meeting was held and Mr. Walter Woodward, Manager of the Park and Pollard demonstration farm, gave an interesting talk on "Poultry Problems."

Directly after this the Stockbridge Freshmen poultry majors left and so no further meetings were held.

STOCKBRIDGE ALUMNI ASSOCIATION

The Stockbridge Alumni Association was founded in 1926 by a group of loyal graduates who had been out into the world for several years busily mastering life's struggles, but not too busy to realize the lack of strong ties to hold their interest in Alma Mater and keep old memories and friendships ever fresh.

The Stockbridge School of Agriculture, or the "Two-Year Course in Practical Agriculture," as it was known prior to 1928, is a very young School, registering its first class in 1918. The type of training which was offered in this non-degree vocational course was entirely different, a new plan of practical education in agriculture not available at any other college in New England. So it was really pioneering work when Professor John Phelan and his Faculty Committee set up the standards and courses of study which should be followed in those earlier years. Thus we find the trial efforts of yesterday with necessary modifications and change, fast becoming the accepted practices of today. It was this training, academic, practical, and social, which has made it possible for our group of Alumni to go out into the world and become not only skilled workers in the world's oldest and most useful profession, but good citizens as well. Stockbridge School has a very large percentage of graduates who are holding positions of responsibility, comparing favorably with other types of colleges and institutions. These loyal sons of Stockbridge are becoming the real backbone of agriculture, not only in New England, but in many neighboring states.

With such a loyal undergraduate body as there is on the campus each year, it is only natural that an active Alumni Association should be organized. Starting as it did during the time when business was good, it had a period of rapid development and was able to get well established before the beginning of the depression; otherwise it would not have been able to weather the many years of hard times which came so unexpectedly.

The first meeting of the Alumni organization was held in Sherer's Restaurant at Worcester in November of 1926. The committee members who started the association were Sidney A. Smith, Walter B. Shaw, Arthur R. Taylor, Gordon E. Steele, and Roger B. Estey, all of the class of 1921. Plans were formulated at that dinner gathering for the constitution and by-laws which later that summer were adopted and have been our guiding plan ever since.

The Stockbridge Alumni News first known as Two-Year News was published by Paul W. Viets, the Supervisor of Placement Training from 1921 to 1927, as a mimeographed sheet, and was sent to all graduates whether they were active in the Alumni Association or not. Later the Alumni Association took over the cost of publishing a printed news letter which is issued three times each year. The practice the last few years has been that only those who have paid their alumni dues shall receive this publication. Dues in the Association are \$2.00 annually, which is a very nominal fee when one considers the cost of circularizing such a large group as we now have on the School records—600 in 1924, more than 2000 names in 1937.

STOCKBRIDGE ALUMNI ASSOCIATION

(CONTINUED)

It should be the object of each graduate or former student of the Stockbridge School to join the Alumni Association before he leaves the College and thereby make a permanent contact between him and his classmates. One little realizes how much you value the associates whom you have enjoyed during the two years spent on the campus, until after a year or so when you find your classmates spread out over the greater part of this country. It is then that you wish to have some means whereby you can keep informed as to what each one is doing.

Often it so happens that a graduate upon receiving his credentials at commencement time feels that now he will be able to go out into his chosen type of work and have everything pretty much his own way. But, such is far from the true course of things. The training which is received while studying here at the College is merely outlining a course for the development of one's abilities. Whether or not one will follow the proper course and have ability lead straight to achievement, will depend entirely upon one's own self. It is like two contractors building a house. One uses good judgment in choosing materials and planning, while the other does not have knowledge to back his plans, and soon after the houses are completed the latter needs constant alteration to secure the desired results. The old saying, "Experience is a dear teacher," still holds true even in the case of Stockbridge graduates. It will be found that one may learn much by matching experiences with those who have had the same training and are employed in much the same kind of work and thereby save oneself the mistakes and errors which would otherwise have to be endured.

Reviewing all that has been said, it is easy to visualize a year or two hence the value of belonging to the Alumni Association of your School and keeping posted on the activities of the College and of your classmates and acquaintances.

Loyal alumni who have held offices in the Association since its organization are listed below with the periods of their service indicated.

In addition to the above mentioned officers there are many more faithful alumni who have served on special committees whenever their services were required.

The Stockbridge School Alumni Association wishes to take this opportunity to express its sincere appreciation for the faithful support it has received from its officers and members and the valuable aid and guidance it has enjoyed through these trying days of youthful trial and faltering growth from President Hugh P. Baker, Director Roland H. Verbeck, and the faculty of Massachusetts State College.

We, as older members of this organization, are glad to welcome the Class of 1937 into our midst.

STOCKBRIDGE SPRING ATHLETIC TROPHY

The Stockbridge Intra-mural plaque is donated by the Physical Education Department to promote greater interest in the Spring athletic program of the Stockbridge School of Agriculture. To increase competition, the Senior class is divided into four sections during the Spring semester. One group is composed of the members of the two fraternities, and is known as the "Club" team. The second team is made up of Seniors majoring in Dairy Manufactures, and is called the "Dairy" team. The "Hort" team is composed of students majoring in Horticulture, Floriculture, and Pomology. The "Wild Life" team is made up of Seniors majoring in Wild Life Management, Animal Husbandry, and Poultry Husbandry.

The Spring program is divided into three parts—an indoor track meet held in April, an outdoor track meet held in May, and an intramural baseball league schedule, with each team playing the other teams at least twice. The trophy will be awarded each year to the team having the highest average standing in all three events, and may be retained for a year in that department.

The plaque was won in 1937 by the Dairy team.

STOCKBRIDGE HONORARY SCHOLASTIC SOCIETY

Early this year at one of the regular meetings of the Stockbridge Faculty Advisory Committee, Miner J. Markuson, Assistant Professor of Agricultural Engineering, presented the suggestion that a plan be adopted by which Stockbridge students who achieved a high scholastic record during their two years here could receive some recognition for that work. It has been a custom in the School for many years to award letters, sweaters, and certificates to students who compete successfully for places on the various athletic teams; the members of "The Shorthorn" staff receive a place of prominence in the yearbook; the Student Council this year has selected special hats as an emblem of the duties and responsibilities vested in them; and all of these are extra-curricular activities, not definitely scheduled or required on the study program, but, nevertheless, playing a very important part in the broadening influences of our Stockbridge life.

To the faculty group this idea of encouraging high scholarship appealed strongly and it was voted to appoint a special committee to submit full plans. As a result of this committee's careful work a plan of procedure has been adopted which the Faculty Advisory Committee hopes will serve to emphasize the importance of sound scholastic standards among all Stockbridge undergraduates.

The name selected was "Stosag", the original suggestion of Professor Markuson, and comprises the first three letters of Stockbridge, the central S for "School" and the last two letters representing the first two in the word "Agriculture". Thus, it combines effectively letters from the three main words in the name of the School and yet is short, dignified, and easily pronounced. The "O" is given the sound as in "stone", and the "a" as in the word from which it came.

The purpose of the organization is "To honor and publicly reward those graduates of the Stockbridge School of Agriculture who have attained high scholastic standing and have shown the attributes of good citizenship."

Selection of honor students is made from those graduates of each year, beginning with 1937, whose records show no grade below 70 in any subject and whose average for the first three semesters is 85 or better. Other students may be considered when outstanding records in placement training or in other studies may justify special consideration.

Special regulations are simple and specific. They are: (a) there shall be no future organization of members of this society; (b) there shall be no dues of any sort; (c) there shall be no election of faculty to honorary membership; (d) the weighted method of striking averages shall be followed; and (e) placement training grades shall be used to guide the Faculty Advisory Committee in making selections, but shall not be included in averages submitted.

Awards shall be made by the Director or his selected representative at the annual Commencement exercise in June. The award shall be an engraved certificate signed by the President of the College and the Director of Short Courses.

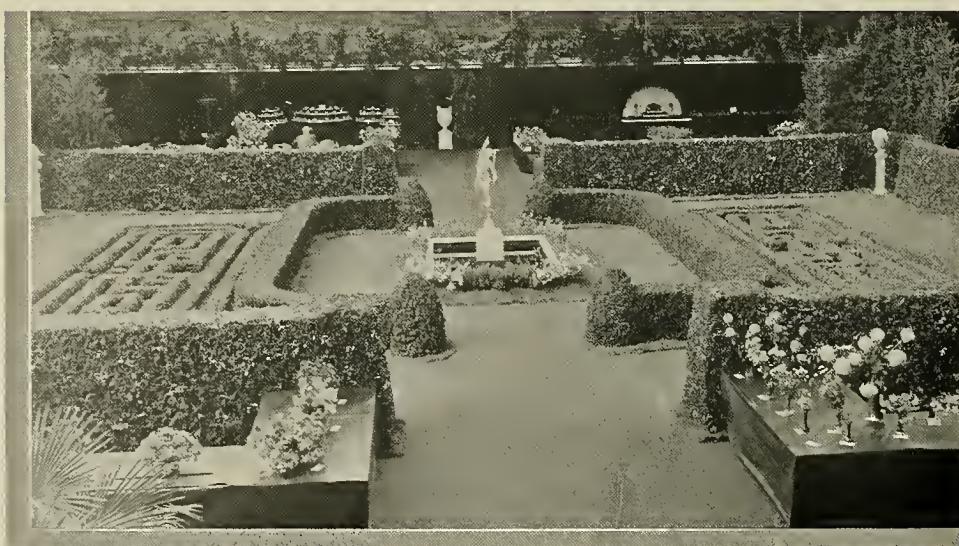

The first group of honor students ever to be selected in this way has been chosen from the Class of 1937 and we take pride in recording their names in this yearbook of the class as a tribute to their effort, persistence, and ability.

HORTICULTURAL SHOW

The twenty-eighth annual Horticultural Show was held in the cage of the Physical Education Building on Friday, Saturday, and Sunday, November sixth, seventh, and eighth. The main feature of the show was a very attractive formal garden, constructed by Stockbridge students, and sponsored by the Horticulture Club. Stockbridge students also received numerous awards in individual and group exhibits.

RING COMMITTEE

The Class of 1937 introduced the new Stockbridge ring which is intended to start a tradition which will continue to symbolize the Stockbridge School and all its achievements. The ring is set with a blue spinel stone, signifying one of the school colors. On one shank of the ring is the seal of the State of Massachusetts. The other shank contains the authentic coat-of-arms of Levi Stockbridge, after whom the Stockbridge School of Agriculture is named.

The Stockbridge coat-of-arms consists of a shield with three crescents arranged triangularly. The crescents symbolize the three crusades against the Saracens during the Middle Ages. The crest of the coat-of-arms is a knight's helmet with a closed visor, indicating preparedness to do battle for truth and righteousness and to relieve the oppressed.

The year began with the first meeting held at the 4-H Clubhouse. All Senior members and ten Freshmen were present. After the functions and activities of the club were explained to the new girls, Miss Hamlin gave a very interesting description of her recent trip to Alaska. She illustrated her talk with postcards, photographs and several native-made souvenirs. The meeting was adjourned after refreshments were served. At the last meeting, during which next year's officers were elected, a social hour was held.

Although the year did not hold many social events for us, it was quite successful and enjoyable. We hope that next year's members will arrange a more active program and carry on the traditions of the S. C. S.

ALPHA TAU GAMMA

Founded 1919

The members of the Alpha Tau Gamma have enjoyed a very successful year. The first social event of the year was an informal dance for the freshman pledges. The highlight of the year was the Formal Dinner Dance, held at the Lord Jeffery Inn on February 27, which was attended by all the members. Other activities during the year included a farewell party for the freshmen and the Formal Interfraternity Dance.

RUDOLPH O. MONOSMITH, B.L.A.

With the aid of our new and popular faculty adviser, Rudolph Monosmith, we have enjoyed a very successful year.

Mr. Monosmith has been a constant and most helpful friend and we take this opportunity to express our gratitude and appreciation for his assistance.

STOCKBRIDGE SOCIOLOGY CLUB

This organization has developed from the series of discussion group meetings which have been led by Rev. K. C. MacArthur. Protestants, Catholics, and Jews have all participated in the discussions of social and religious problems. Among the topics treated during the current academic year have been: Religion and Communism, Evolution and Religion, The Meaning of Thanksgiving and Christmas, Choosing a Life Partner, Home Life, and The Place of Suffering in Experience.

The thanks of the group are due the Kolony Klub and the Alpha Tau Gamma for their generosity in opening their houses for these meetings.

ATHLETICS

FOOTBALL

With only five lettermen returning, Coach Ball and Alden P. Tuttle had to work hard to whip the team into first class condition for the initial game. The team opened the season with a flying start, but slowed down as the season advanced, due largely to the many injuries to the players. The objective game with Deerfield was lost in the last half when they recovered our fumble and converted it into a touchdown.

The second and third teams had an excellent season, coming through undefeated. There are several promising stars, some of whom will be regulars next year, forming a fine nucleus for a bigger and better team.

Letter awards to Seniors are as follows: Co-captains, Elmer Hair and Barry Bush, Howard Andrews, Harry Acker, Donald Baldwin, Thomas Boyce, Joseph Bauks, Irving Christensen, Joseph Drago, Armando Emanuele, Frederick Fischer, Bernard Jackimczyk, Anthony Merino, Winthrop Sanderson, Frederick Tucker, Carleton Whittaker, and Manager Wilbur Young.

Freshmen receiving letters were: Captain-elect Ernest Fournier, Eben Brown, Henry Griffin, Edwin Helander, and Richard Sparks.

Games and scores were as follows:

S. S. A.	20	Nichols Junior College	0
S. S. A.	0	Vermont Academy	0
S. S. A.	6	Essex Agricultural School	12
S. S. A.	7	Williston Academy	6
S. S. A.	0	National Farm School	6
S. S. A.	6	Deerfield Academy	13
S. S. A.	6	Cushing Academy	13

CROSS COUNTRY

This year's cross country team, under the able guidance of Coach Llewellyn Derby, emulated last year's squad and handed in the second consecutive undefeated record. Although fewer meets were scheduled, the competition was keen. Throughout the entire season the team showed a fine fighting spirit that seemed to make it invincible.

Seniors earning letters were as follows: Stanley Bartlett, Joseph Broughton, Clifford Cummings, Arthur Ecklund, Manager Frederick Fife, Captain Douglas Graves, Robert Hodgen, Henry Mackie, and George Trowbridge.

Freshmen earning letters were: Co-captains Lawrence Bearce and Lowell Hammond.

HOCKEY

Due to poor ice conditions, the hockey team was able to play only four games, three of which were lost. The opening game at Williston was lost by one goal after a hard fought battle. The team then traveled to Deerfield to lose a see-saw game when Deerfield scored in the last few seconds of play. In the return game, Williston overpowered us by a fast skating aggregation. The final game with the State Freshmen was played on the College pond on ice which made skating almost impossible. The game was called after the first overtime period, with both teams scoreless.

Letter awards to Seniors: Captain Edward Norberg, Donald Baldwin, Joseph Bauks, Armando Emanuele, Joseph Goldrick, John Keenan, Samuel Lowery, Anthony Merino, William Prindle, Robert Shattuck, and Manager, Joseph Drago. Letter awards to Freshmen: Captain-elect, Walter Brown, Lawrence Bearce, and Chester Johnson.

The scores and schedule are as follows—

S. S. A.	1	Williston Academy	2
S. S. A.	3	Deerfield Academy	4
S. S. A.	0	Williston Academy	2
S. S. A.	0	State Freshmen	0

BASKETBALL

With only three lettermen returning, Coach Ball had to work hard to fill several vacancies. He discovered some very promising material in the persons of Joseph Martula and Percival Hastings, both of the Class of 1938. The team completed its season with four wins and five losses, losing the objective game to the Essex Aggies in an overtime period. The high scorers and outstanding performers were Captain Frank Wojtkielewicz, Walter Wanczyk, and Captain-elect Joseph Martula.

Seniors earning letters were as follows: George Bush, Gordon Cahill, Frederic Callahan, Robert Eisenhauer, Elwyn Fowles, Manager, Sidney Gould, Elmer Hair, Fred Taylor, Walter Wanczyk, and Captain Frank Wojtkielewicz. Freshmen earning letters were: Percival Hastings and Captain-elect, Joseph Martula.

WINTER TRACK

The indoor track squad members are to be commended for their fine spirit of perseverance and enthusiasm. In spite of a limited team and a short season, the squad made a notable showing in all meets, particularly in the inter-class meet with M. S. C., when they won second place. The outstanding performers were Captain Arthur Hartshorn, Sam Lowery, Edward Haczela, and Robert Coffin.

The following Seniors received letters: Captain Arthur Hartshorn, Samuel Lowery, and Manager Frederick Fife. Freshmen earning letters were: Captain-elect Edward Haczela, Robert Coffin, Charles Collis, Lowell Hammond, and Joseph Spaulding.

COMMENCEMENT

CLASS PLAY

Our scene is laid in the Village of Clovelly on the wind-swept coast of Devon. Far above, on a stormy crag, clinging by its toes, there stands a pirate's hut. We had hoped we might see a pirate ship at sea, a swaying mast, full set with canvas, a victim walking off the plank into the roaring sea. But alas, our pirates grow old and stiff. They have retired, as we say, from active practice and live in luxury on shore. Yet their villainy still thrives. We are quick to think that childhood passes with the years, that its fine fancy is blunted with the practice of the world. But, if man permits, a child keeps house within his heart. For him, long will live the timid Patch-eye, the evil Duke limping on his wooden leg, the roaring Captain flourishing his hook, Darling and her one tooth, sinister Old Meg, Red Joe and Betsy who are,—but if the child in your heart still lives, you have always known who they are. And once again in Wappin' Wharf, despite the sign-post of the years, we have run on the "laughing avenues of childhood".
